

WHY CHOOSE JUST ONE UNIVERSITY?

How IDEA Works

Each IDEA student chooses one university as their home university. Once admitted, you will work with a faculty advisor and campus coordinator to guide you. While you enroll and pay tuition at your home university, courses are taught fully online by faculty from partner universities who are collaborating to create opportunities beyond what one university can provide.

Anytime, Anywhere Learning

Achieve your personal and professional goals through convenient, flexible, high-quality coursework offered 100% online.

Reputable Universities with Expert Faculty

Learn from expert faculty who bring real-life experience and diverse perspectives to the coursework. With multiple universities offering courses, you can create a unique learning experience catered to your interests and goals.

Prioritize Student Success

Choosing IDEA for your academic journey means partnering with faculty and staff who provide a student-centered, collaborative, educational experience. They understand the unique needs of adult online learners who are balancing family, work, and school.

"My degree isn't limited by time or location. I'm learning from top professors at universities all over the country. My classroom is literally wherever I want it to be, and I can complete assignments when it's convenient for me."

HUMAN SCIENCES PROGRAMS

Master's Degrees and Graduate Certificates are available.

- Community Development
- Dietetics & Nutrition
- Early Childhood & Family Policy
- Family & Community Services
- Family & Consumer Sciences Education
- Family Financial Planning
- Gerontology & Aging Studies
- Youth Development

Bachelor's Degree Available

AGRICULTURE PROGRAMS

Master's Degrees, Graduate and Undergraduate Certificates are available.

- Agricultural Education
- Agricultural & Environmental Law
- Agricultural Systems Management & Technology
- Animal Science
- Food Safety & Defense
- Grassland Management
- Horticulture
- Quantitative Genetics & Genomics
- Swine Science

Degree titles vary by institution. Consult each institution for the title as it will appear on the diploma. Some programs offer degrees and certificates, while some programs offer one or the other. Visit the IDEA website for more information.

COST AND FINANCIAL SUPPORT

Students pay the same common price per credit hour at all universities, regardless of degree program or course enrollment. The common price is the same for in-state and out-of-state students so there are no administrative fees or distance delivery costs. Students apply for financial assistance and military benefits at their home university.

PARTICIPATING UNIVERSITIES

- University of Arkansas
- Auburn University
- California State University, Chico
- Central Washington University
